In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name. Maybe I said it out loud in my sleep. Or somebody told him. But nobody knows it. Nobody ever knew my name but the wizard, and my mother. And they're dead, they're dead... I said it in my sleep.... And the Masters . . . They were strange eyes, right on a level with his own.. Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay.. the music. And you." The breeze was moving again slightly; she could hear a bare whispering among the oaks. Then, very slow, very careful, he began to speak the spell of calling.. the body but only the King. Only he can read what is written." speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her. Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea.. fluff that became more and more transparent as it descended. There were no inns on this road through what had once all been the Domain of Iria. As the sun neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a shed for the cart, and straw in the stable loft for the carters. The loft was dark and stuffy and the straw musty. Ivory felt no lust at all, though Dragonfly lay not three feet from him. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of. larger than she was, enormously larger. The old man put his own jacket around his shoulders and gave him water from his flask. Then he squatted beside him, his back against the immense trunk of the oak, and stared into the forest for a while. It was late morning, hot, the summer sunlight filtering through the leaves in a thousand shades of green. A squirrel scolded, far up in the oak, and a jay replied. Hound scratched his neck and sighed.. "Oh, bonses! Do you want a bons?". "Ah," said the Patterner. It took them a long time. There was a rivalrous spirit in him that made him look on any power he did not have, any thing he did not know, as a threat, a challenge, a thing to fight against until he could defeat it. There are many boys like that. I was one. But I was lucky. I learned my lesson young..But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. A moment later a thunderclap rolled off the hidden upper slopes of Gont Mountain, echoing round from north to south, dying away in the cloud-filled forests..As for Crow, unable to part with the Book of Names even for a month, he sent for his own books from Orrimy and settled down with them in Thwil. He allowed people of the school to study them, so long as they showed them, and him, due respect..say. But you should know that leaving Roke may be even harder than coming to it. Prison within."I don't know," the Herbal said. "I can only tell you that when I'm with him, when I'm in the Great House, I feel that nothing can be done but what has been done. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still. We have gone too far. For the Archmage and Lebannen to go bodily into death, and return - it was not right. They broke a law that must not be broken. It was to restore the law that Thorion returned.. "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind.. "Don't move," in a low, amicable voice. "You're not," Irian said. She thought him between thirty and forty, though it was hard to tell, the source and center of magic. Silence nodded, acceptant as always. Mead looked at her sister. "Then it's time we talked a bit to you," she said, sitting down across the hearth from him. Ayo stood by the table, silent. A good fire burned in the hearth. It was a wet, cold time, and firewood was one thing they had plenty of, here on the mountain. "Gully," he named himself after a pause, and she thought it was a name he had made up to call himself. It did not fit him. Nothing about him fit together, made a whole. Yet she felt no distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in him, the way he spoke of the animals. He would have a way with them, she thought.
