"She's going there, to the wall, and I can't go with her," she said. "She's going alone and I. He drank a mug of beer down in one draft, and the girls with him watched the muscles in his strong throat as he swallowed, and they laughed and chattered, and he shivered all over like a cart horse stung by flies. He said, "Oh! I can't --!" He bolted off into the dusk beyond the lanterns hanging around the brewer's booth. "Where's he going?" said one, and another, "He'll be back," and they laughed and chattered..have walked under the trees... Our job must be to keep that strength. Hide it, yes. They welcomed him with disbelieving joy. Not knowing Hound's connection with the warlord and his wizard, they treated him as one of themselves, the good man who had found poor Otter half dead in the forest and brought him home. A wise man, said Otter's mother Rose, surely a wise man. Nothing was too good for such a man..down the path. He had not been standing there until the other mage said 'Ah." And so together we could turn his power." "But surely you can't tell?". "There's people all over these parts, and maybe beyond, who think, as you said, that nobody can be wise alone. So these people try to hold to each other. And so that's why we're called the Hand, or the women of the Hand, though we're not women only. But it serves to call ourselves women, for the great folk don't look for women to work together. Or to have thoughts about such things as rule or misrule. Or to have any powers..".file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (2 of 111) [2/5/2004 12:33:30 AM].I went outside. It was indeed a park. She was never ill-natured. She seldom thought to do anything much for her daughter, but never hurt her, never scolded her, and gave her whatever she asked for, dinner, a toad of her own, the amethyst necklace, lessons in witchcraft. She would have provided new clothes if Rose had asked for them, but she never did. Rose had looked after herself from an early age; and this was one of the reasons Diamond loved her. With her, he knew what freedom was. Without her, he could attain it only when he was hearing and singing and playing music.. "One of the old women you had tortured before they burned the lot, you know? Well, the fellow who." "I think Irian of Way may have come to us seeking not only what she needs to know, but also what we need to know." The Doorkeeper's tone was equally sober, and his smile was gone. Emer had asked, showing her round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these meadows until he had touched every living beast of the great herds there. Alder had sent two cowboys along. They made a camp of sorts, with a groundcloth and a half tent. There was nothing to burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil water and never enough to warm a man. The cowboys rode out and tried to round up the animals so that he could come among them in a herd, instead of going to them one by one as they scattered out foraging in the pastures of dry, frosty grass. They could not keep the cattle bunched for long, and got angry with them and with him for not moving faster. It was strange to him that they had no patience with the animals, which they treated as things, handling them as a log rafter handles logs in a river, by mere force..deep shadows. He looked from one to the other again. "I wasn't well taught, in the City of Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and had no strength against the strong. They gave me all they had to give, but it was little. It was by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's servant now. Yet she herself was untaught, and so enslaved. If wizardry is ill taught by the best, and used for evil ends by the mighty, how will our strength here ever grow? "He'll skin you." She dumped a kettleful of steaming water into the bath. "He has ivory," she said. "Tell him ivory it has to be. Out there ten days starving in the cold to cure his beasts! San's got nothing but copper, but Alder can pay you in ivory. I'm sorry if I'm meddling in your business. Sir." She flung out the door with two buckets, going to the pump. She would not use the stream water for anything at all, these days. She was wise, and kind. Why had he lived so long among those who were not kind?.pardon," she said..The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth.Ivory nodded gravely. If they make it through."I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. Though they may not love you." .She looked at him. She could not speak. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark.
