Though the air ran cool.The power of the Archmage of Roke was in many respects that of a king. Ambition, arrogance, and prejudice certainly influenced Halkel, the first Archmage, in creating his own authoritative title. Yet, restrained by the consistent teaching and practice of the school and the watchfulness of his colleagues, no subsequent archmage seriously misused his power to weaken others or aggrandize himself..Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room."You don't? He barely escaped with his life. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert." All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic..patrols south of Omer, running a stolen fishing boat with the magewind. Among the scholars and other teachers he had a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little. The Summoner would send gifted students to him, but many of the boys there scarcely knew of him. In this isolation he began to practice certain arts that are not well to practice and lead to no good thing..invasion.
